

Vivek Chawda

Principal Product Designer · UX Strategy Leader

Bengaluru, India (Open to Remote & International) · +91 966 378 1502 · vivchawda@gmail.com · [linkedin.com/in/vivchawda](https://www.linkedin.com/in/vivchawda) · vivcs.com

PROFESSIONAL SUMMARY

Product design leader with 16 years of end-to-end experience across enterprise SaaS, healthcare, agri-tech, and industrial IoT. Known for building and scaling design teams (designers and researchers), establishing design systems from the ground up, and driving measurable product outcomes in complex, data-heavy environments.

Signature work: led “ITC MAARS” at McKinsey & Co. — a 0-to-1 rural agri-tech platform for 10,000+ low-literacy smallholder farmers, delivered through on-field research, full UX execution, and hands-on engineering collaboration. Equally effective as a senior IC or people-manager; experienced partnering with C-suite, product leadership, and global dev teams across regulated industries.

WORK EXPERIENCE

Consulting Lead Product Designer — Contract Engagements (Confidential Clients)

Bengaluru, India | Jun 2025 – Present

- ▶ Led 0-to-1 UX strategy and product design for a Series A health-tech startup (US) — doctor-facing platform including full information architecture, user flows, and a scalable component system.
- ▶ Designed UX for an investment advisory application, translating complex insurance and financial workflows into intuitive, investor-ready interfaces supporting the client's fundraising narrative.
- ▶ Conducted UX audits and WCAG 2.1 AA accessibility reviews for enterprise SaaS clients in healthcare and insurance sectors.
- ▶ Researched and mapped product opportunity gaps for a consumer electronics client, producing a strategic UX brief informing roadmap prioritisation.
- ▶ Architected and deployed an end-to-end AI product from concept to deployment, demonstrating hands-on LLM integration, complex product thinking, and tight alignment with engineering workflows.
- ▶ Spearheaded UX strategy, interaction design, and technical execution for a Vision-AI powered inventory management system, bridging the gap between hardware tracking and seamless digital user flows.

Function Design Leader — Ecolab · 6-month contract; extended

Bengaluru, India | Aug 2023 – May 2025

- ▶ Managed and mentored a cross-functional design team, establishing design process, critique cadence, ways of working, and documentation standards adopted org-wide.
- ▶ Architected and deployed an enterprise-grade design system with advanced token management — increasing engineering handoff efficiency by 25% and reducing UX QA rework by 30%.
- ▶ Delivered optimised web dashboard and mobile application achieving design-to-code parity via a token-driven component library.
- ▶ Partnered with product and engineering leadership to align design priorities with business objectives and quarterly release timelines.

Lead Product Designer / Senior Associate — McKinsey & Company

Bengaluru, India | Feb 2022 – Aug 2023

- ▶ Sole design leader on MAARS — a 0-to-1 rural agri-tech platform for low-literacy smallholder farmers in India by ITC. Conducted on-field user research, translated insights into interaction design, and collaborated directly with engineering through build and launch.
- ▶ Achieved adoption by 10,000+ users within the launch window; improved core task success rates by 55% through iterative usability testing and UI refinement.
- ▶ Designed secure critical user flows including 2FA and account protection interfaces within an Agile/SAFe delivery environment.
- ▶ Managed stakeholder alignment across McKinsey client teams, product owners, and engineering leads across multiple sprint cycles.

Principal Product Designer — Kayrros · Founding design phase; local Paris team transitioned in upon handover

Bengaluru, India / Paris, France | Nov 2020 – Jan 2022

- ▶ Owned product design across a suite of 7 interconnected environmental monitoring SaaS products serving enterprise analyst and policy-making teams globally.
- ▶ Led and mentored a distributed design team, setting cross-product design standards, a shared component library, and unified token system — accelerating global development cycles by 18%.
- ▶ Shipped complex data visualisation dashboards, predictive analysis interfaces, and decision-support tooling handling edge-case data density and multi-locale requirements.
- ▶ Acted as primary design partner to VP-level product stakeholders and engineering leads across two geographies.

Senior UX Designer / Technical Expert — Siemens Technology

Bengaluru, India / Erlangen, Germany | Jul 2018 – Nov 2020

- ▶ Led UX strategy and prototyping that directly contributed to securing the multi-million dollar Dubai Expo 2020 Control Center contract — setting a new benchmark for real-time monitoring and control dashboards.
- ▶ Managed a team of UX designers and researchers, defining design processes and quality standards aligned with global engineering requirements.
- ▶ SPOC for Oil & Gas vertical: Reduced post-launch support tickets by 25% through precise interaction specifications and close engineering collaboration across two geographies.

Senior UX Designer — Philips Design

Bengaluru, India | Jan 2015 – Apr 2018

- ▶ Led UX for a global SaaS platform monitoring medical imaging equipment health across hospital networks in 20+ countries; managed a team of designers and researchers.
- ▶ Designed clinical interfaces compliant with FDA-regulated medical software safety standards, validated through research with radiologists across the US, EU, and India.
- ▶ Established design documentation practices that significantly reduced design-engineering misinterpretation across time zones.

EARLIER CAREER

GE Healthcare (2012–2014) · *Senior Interaction Designer · 2-project contract engagement* — High-acuity patient monitoring systems and TeleICU clinical interfaces.

Jaguar Land Rover (2011–2012) · *Interaction Designer · Deployed by Tata Elxsi for R&D programme* — Automotive HMI design and driver distraction safety standards.

Tata Elxsi (2010–2011) · *UX Designer* — Enterprise and consumer interaction patterns and information architecture.

CORE COMPETENCIES

Leadership & Strategy: Design Team Management (local & distributed) · 0-to-1 Product Development · UX Strategy · Design Process & Ways of Working · Stakeholder & Client Management · Agile / SAFe Delivery

UX & Product Design: Information Architecture · UX Research & Usability Testing · Data Visualisation · Low-Literacy & Accessibility Design · Complex Systems Design · End-to-End Product Ownership

Design Systems: Advanced Token Management · Component Libraries · Pattern Systems · WCAG 2.1 AA · Design-to-Code Handoff

Tools & Technical: Figma · Framer · Axure · Adobe Creative Suite · Miro · HTML · CSS · JavaScript · Python · LLM / AI Integration · Open-Source Development

EDUCATION

Master of Design (M.Des.) — Software & User Interface Design

National Institute of Design · 2007 – 2009

(Thesis, Malmo University/TAT)

Bachelor — Information Technology

South Gujarat University · 2004 – 2008

CERTIFICATIONS

- ▶ SAFe Agilist — Scaled Agile Framework
 - ▶ United Nations Design for Good (DfG)
